

PONDARA AKHIL BEHARA

Srikakulam, Andhra Pradesh, India

+91 7013432177 | akhilbehara97@gmail.com | GitHub | LinkedIn | Certifications

PROFESSIONAL SUMMARY

Computer Science (AI & Data Science) student building AI-powered applications, workflow automation systems, and data analytics solutions using Python, SQL, Claude, Gemini, and OpenAI APIs. Interested in AI evaluation, system testing, data validation, and scalable software development.

TECHNICAL SKILLS

Programming: Python, JavaScript, TypeScript, C

AI & LLMs: Claude API, Gemini API, OpenAI API, MCP, Prompt Engineering, Model Evaluation

Data & Analytics: SQL, PostgreSQL, MongoDB, Pandas, Tableau, EDA, Statistical Analysis

Automation: ETL Pipelines, Workflow Automation, Data Validation, Error Handling

Tools: Git, GitHub, Supabase, REST APIs, Postman, VS Code

PROJECTS

Data Agent

Python, Claude API, SQL

Built an AI-powered data analysis system for dataset ingestion, transformation, and automated insight generation. Developed evaluation workflows across 50+ datasets, reducing manual analysis time by 3+ hours.

FileFlow

Python, Automation

Built a privacy-first file processing platform supporting 20+ file formats across images, documents, audio, and video using Next.js, TypeScript, and FFmpeg WASM. Implemented OCR, batch processing, validation, and ZIP export workflows, enabling 100% client-side file conversion without server-side uploads.

ThinkRing

PostgreSQL, MongoDB

Built a campus management platform with 5+ integrated student services using JavaScript and Supabase. Implemented secure authentication, role-based access control, and scalable cloud-backed architecture.

Data Jobs Salary Analysis | Live Demo

Python, SQL, Tableau

Analyzed 50K+ job postings to identify salary trends, in-demand skills, and hiring patterns within the data industry.

EXPERIENCE

Deloitte Australia Data Analytics & Forensic Technology Virtual Experience (Forage)

- Built Tableau dashboards and data validation workflows for business intelligence and audit analysis.
- Applied statistical analysis techniques to identify patterns and insights from complex datasets.

Tata iQ GenAI Data Analytics Virtual Experience (Forage)

- Evaluated AI-generated recommendations for accuracy, bias detection, and ethical compliance.
- Designed risk assessment workflows using exploratory data analysis on large financial datasets.

EDUCATION

B.Tech Computer Science (AI & Data Science)

2023–2027

Chaitanya Engineering College

Relevant Coursework: Data Structures, DBMS, Statistics, Machine Learning

CERTIFICATIONS

- Anthropic Model Context Protocol (MCP)
- Deloitte Data Analytics & Forensic Technology (Forage)
- Tata iQ GenAI Powered Data Analytics (Forage)
